## PREFATORY NOTE

The *ART INDEX* is an index to domestic and foreign publications. Although it is primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to published articles as well as entries for reproductions of works of art, all arranged in one alphabet. In addition there is a listing of citations to book reviews following the main body of the Index.

Subject areas indexed include archaeology, architecture, art history, city planning, crafts, films, graphic arts, industrial design, interior design, landscape architecture, museology, photography, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall Index coverage.

While the responsibility for all indexing and editorial decisions rests with The H.W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H.W. Wilson Company, 950 University Avenue, Bronx, N.Y. 10452.

# EXPLANATORY NOTES

## ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Subdivisions of topical headings are grouped in the following order: (1) Form and topical subdivisions (Art—Themes), (2) Geographical subdivisions (Art—China). Period subdivisions (Art, American—19th century) precede topical subdivisions (Art, American—Exhibitions). Inverted headings (Art, Indonesian) precede phrase headings (Art and literature).

## HEADINGS

This Index uses specific headings and subheadings. Articles about individual artists and reproductions of their work are indexed under their names. If a surname which includes an article or preposition is not found under the prefix it should also be searched for under the part of the name following the prefix. Names beginning with variations of Master, such as Maestro, Maître, Meister, are entered under Master, e.g. Master of Moulins. An article about a museum or architectural firm is indexed under its name.

## REFERENCES

*See* references guide the user from terms not used as headings to those under which entries are to be found. They are always made to inverted headings from the uninverted form, e.g., Chinese enamels *See* Enamels, Chinese. *See also* references guide the user from terms used as headings to related headings. *See also* references have been made to specific corporate names used as headings from an appropriate generic heading such as Architectural firms and groups; Design firms and groups; Textile industry—United States.

## ARTICLE TITLES

In some cases the indexer has supplied the title or added text to clarify the meaning of the title. Square brackets are used to indicate theses editorial interpolations.

## ILLUSTRATIONS

Illustrations of works of art (up to ten) that accompany an article are listed by title in a note following the artist entry. If an artist's illustrations exceed ten, they are not itemized.

## BOOK REVIEWS

Citations to book reviews are listed in a separate alphabet following the main body of the Index. Book reviews which appear as part of a review article are also indexed under subject headings.

## Sample Subject Entries

[Quattrocento clarity: old world elements infuse a  
new residence in Texas [Fort Worth] M. Ennis. col  
il por (p16) *Archit Dig* 47:180-7 O '90

## EXPLANATION

The reproduction of Virgin and child made by followers of Donatello can be found on page 1 of volume 132, the November 1990 issue, of *Burlington Magazine*. The reproduction is in color. It represents a terracotta relief influenced by the style of Donatello and dates to the mid 15th century.

An article entitled "HABS/HAER: a user's guide" can be found in volume 22 no1/2, 1990, on pages 22-34 of *The Association for Preservation Technology Bulletin*. The article includes bibliographic footnotes, illustrations, tables and diagrams. The author is Robert J. Kapsch. An explanatory enhancement clarifies the meaning of the double acronym given in the title. The square brackets indicate this editorial interpolation.

An article on the subject of Interior design in Texas entitled "Quattrocento clarity: old world elements infuse a new residence in Texas," by Michael Ennis, will be found in the magazine *Architectural Digest*, volume 47, pages 180-187 of the October 1990 issue. The article contains color illustrations and a portrait on page 16. The indexer has added Fort Worth in square brackets to provide more specific information as to the location in Texas.
